

Billy Budd, Foretopman. Herman Melville, a Biographical Sketch. (Bantam Pathfinder Editions)

Billy Budd is a novella begun around 1886 by American author Herman Melville, left unfinished at his death in 1891 and not published until 1924. The work has been central to Melville scholarship since it was discovered in manuscript form among Melville's papers in 1924 and published the same year. It has an ignominious editorial history, as poor transcription and misinterpretation of Melville's notes on the manuscript marred the first published editions of the text. For example, early versions gave the book's title as Billy Budd, Foretopman, while it now seems clear Melville intended Billy Budd, Sailor: (An Inside Narrative); some versions wrongly included a chapter that Melville had excised as a preface (the correct text has no preface); some versions fail to correct the name of the ship to Bellipotent (from the Latin bella war and potens powerful), from Indomitable, as Melville called her in an earlier draft. The plot follows Billy Budd, a seaman impressed into service aboard the HMS Bellipotent in the year 1797, when the Royal Navy was reeling from two major mutinies and was threatened by the Revolutionary French Republic's military ambitions. Billy, an orphaned illegitimate child suffused with innocence, openness and natural charisma, is adored by the crew, but for unexplained reasons arouses the antagonism of the ship's Master-at-Arms, John Claggart, who falsely accuses Billy of conspiracy to mutiny.
