

## Can You Forgive Her? vol. 1 of 2 (Classic Reprint)

WHETHER or no, she, whom you are to forgive, if you can, did or did not belong to the Upper Ten Thousand of this our English world, I am not prepared to say with any strength of affirmation. By blood she was connected with big people,-distantly connected with some very big people indeed, people who belonged to the Upper Ten Hundred if there be any such division; but of these very big relations she had known and seen little, and they had cared as little for her. Her grandfather, Squire Vavasor of Vavasor Hall, in Westmoreland, was a country gentleman, possessing some thousand a year at the outside, and he therefore never came 11p to London, and had no ambition to have himself numbered as one in any exclusive set. A hot-headed, ignorant, honest old gentleman, he lived ever at Vavasor Hall, declaring to any who would listen to him, that the country was going to the mischief, and congratulating himself that at any rate, in his county, parliamentary reform had been powerless.
