

England, 1659: Captain Kit Faulkners house is prospering; his eldest son recently returned from a profitable trip to Jamaica, and his daughter has made a suitable match with a young sailor. But the resignation of the Lord Protector, Richard Cromwell, throws England into uncertainty. Will the republic flourish, or will a King return to the throne? Kit is content to let matters take their natural course, but his younger son, Henry, is an idealist with political ambitions. It soon becomes clear that Henry is in much deeper than Kit first realised, and his actions may threaten everything that Kit holds dear....
