

Shirley-Classics of Translation-World Literatur-V (Chinese Edition)

The story of Shirley is set in the early 19th century when British cotton spinners spontaneously destroyed machines and resulted in turmoil in the field of industry. It mainly tells about the love and hate entanglement among four people: Shirley, the only inheritress of eminent Furth family; Caroline, brought up by her uncle; Robert Moore, a mill owner; and Louis Moore, a tutor. The lovers finally get married.
