

Njals Saga (The Story of Burnt Njal) (Digireads)

Considered to be one of the finest of the Icelandic sagas, Njals Saga (or The Story of Burnt Njal) was written sometime in the thirteenth century by an unknown author and is the longest and most developed of the sagas. The source material for the saga was historical but probably drawn largely from oral tradition. The story relates events that took place between 960 and 1020, involving blood feuds in the Icelandic Commonwealth. It features memorable characters like the noble warrior Gunnar of Hlidarendi, the lawyer Njall Þorgeirsson, and the mildly villainous Mord Valgardsson, whose motivations and passions are familiar to people of every age and locale. The saga is divided into three parts, which describe the friendship between Gunnar and Njal, the tragic consequences of revenge, and finally the retribution of Flosi and Kari. Themes of loyalty, marriage, family honor and vengeance permeate this beautifully written and timeless epic.
