

To the Sun

In July 1881, having established himself as a writer of great pedigree and potential and at the beginning of a ten-year period that would see him become one of the most popular authors of his age, Maupassant embarked on a dangerous journey to the troubled colony of Algeria, believed to be on the verge of an Arab insurrection. In *To the Sun* Maupassant describes a land and populace vanquished by the twin powers of the sun and French colonialism, he bows down before the former, finding a personal absolutism in the light, heat and space of the desert. But he stands up to the latter, pointing out the faults and absurdities of French colonialism, all the while demonstrating his brilliance as a political reporter who came to understand Algeria and its problems in such a short space of time. This is the first complete English translation of Maupassant's travel book *Au soleil* (1884), including the three fragments *At the Spas*; *In Brittany*; and *Le Creusot*, as well as full critical apparatus.
