

Vautrin (French Edition)

Il est difficile a l'auteur d'une piece de theatre de se replacer, a cinquante jours de distance, dans la situation ou il etait le lendemain de la premiere representation de son ouvrage ; mais il est maintenant d'autant plus difficile decrire la preface de Vautrin, que tout le monde a fait la sienne ; celle de l'auteur serait infailliblement inferieure a tant de pensees divergentes. Un coup de canon ne vaudra jamais un feu d'artifice. L'auteur expliquerait-il son ?uvre ? Mais elle ne pouvait avoir que M. Frederick-Lemaître pour commentateur.
