

## Tish Marches On (The Letitia Tish Carberry Series)

Tish takes it upon herself to attend a coronation and save a king. A naive observer might not immediately see a connection between the newspaper accounts of a man found naked on a church steeple, a constable attacked from the sky, and a grocer assaulted by balloon bandits. But these stories are tied together by a single word: Tish, the nutty maid who has never let old age get in the way of a good time. When her nephew announces a trip to England to write about the Coronation, Tish demands to come along. Fearing a diplomatic incident, her nephew refuses, but Tish resolves to find another way. Its not long before she takes to the air -- and the sky will never be the same. In these stories, Tish and her friends advise young lovers on bad haircuts, contend with fish in Florida and bears in the far west, and narrowly avoid confrontation with the waxworks at Madame Tussauds. With her unwavering, destructive enthusiasm, this sprightly old spinster gives new meaning to the phrase young at heart.
