

The Life of Charlotte Bronte, Volume 2

During this summer of 1846, while her literary hopes were waning, an anxiety of another kind was increasing. Her father's eyesight had become seriously impaired by the progress of the cataract which was forming. He was nearly blind. He could grope his way about, and recognise the figures of those he knew well, when they were placed against a strong light; but he could no longer see to read; and thus his eager appetite for knowledge and information of all kinds was severely balked. He continued to preach.
