

## Prospect Park: Olmsted and Vauxs Brooklyn Masterpiece

Right in the heart of one of the nations most densely populated urban areas sits an idyllic realm of graceful meadows, dense woods, placid lakes, and fresh air. Brooklyns 585-acre Prospect Park offers a rural refuge to thousands of visitors every day. Created nearly 150 years ago by Frederick Law Olmsted and Calvert B. Vaux, designers of New Yorks Central Park, the duo considered Prospect Park their true masterpiece. Prospect Park, the first monograph on this exquisite public space, makes it easy to see why. Presenting a wealth of archival and newly commissioned photography and insightful text, David P. Colley and Elizabeth Keegin Colley trace the parks colorful history from its creation in the mid-nineteenth century to its decline in the 1970s and restoration in the 1980s, up to the parks new Lakeside Center facility, scheduled to open in 2013.
