

Newport is Haunted

In the summer of 2008, we began exploring fund raising opportunities for a student service trip. Our plan was to develop an annual event to support our service work in impoverished places throughout the world. After falling in love with Newport, we decided to create The Newport Walking Tour, also known as the Gangster Tour. We put a spotlight on the vice and illegal activity during the years it was known as Sin City, USA. As we crafted our tour, we were surprised that along with every gangster story we collected was a pair of ghost stories. The historical archives shocked us with a disturbing chain of hauntings and strange happenings dating as far back as the early 1800s. After gathering and sharing these stories with friends and family, we were encouraged to do more than create a ghost tour. The following stories needed to be placed in a book so that they may be more accessible and preserved.
