

White Fang

Five wolf pups are born, but only one survives. The lone pup and its mother must fend for themselves when the pups father is killed by a lynx. Later, the pair is discovered by Native Americans. Grey Beaver, who recognizes the she-wolf as his late brothers wolfdog, adopts the pup and names him White Fang. Targeted by the other pups in the Native American camp before being sold to a dog fighter, White Fang grows to be fierce, distrustful, and morose.
