### Stolen Treasure

Howard Pyle

Here's a swashbuckling tale, if ever there was one. As for Captain Morgan, he went about his work with the utmost coolness and deliberation imaginable, unbuttoning the waistcoat and the shirt of the man he had murdered with fingers that neither twitched nor shook. There were a gold cross and a bunch of silver medals hung by a whip-cord about the neck of the dead man. This Captain Morgan broke away with a snap, reaching the jingling baubles to Harry, who took them in his nerveless hand and fingers that he could hardly close upon what they held. The papers Captain Morgan found in a wallet in an inner breast-pocket of the Spaniard's waistcoat. These he examined one by one, and finding them to his satisfaction, tied them up again, and slipped the wallet and its contents into his own pocket.
