

The Awakening: with selected short stories

Kate Chopin's second and final novel, *The Awakening* caused a censorious stir among critics upon its publication, challenging as it did the accepted gender roles of the day. Regarded now as a classic of naturalist literature, it is presented here with four additional stories: *Desiree's Baby*, *A Respectable Woman*, *The Kiss* and *A Pair of Silk Stockings*. [Printed on traditional cream paper and set in comfortably legible print with wide, thumb-friendly margins.]
