

The Book of Revelation: A Study of the Last Prophetic Book of Holy Scripture (Classic Reprint)

Excerpt from The Book of Revelation: A Study of the Last Prophetic Book of Holy Scripture This work is the result of 25 years study of the Book of Revelation. Twice within 6 years the writer gave a 4-months course of Sunday morning sermons to his people on the Book. These lectures have also been given in Bible Institute Courses, illustrated with large, colored, wall charts. The Book of Revelation is interpreted from the Futurist Standpoint. Chapters two and three cover the present Church Dispensation. From chapter four until the end of the Book all is future. The writers purpose is to show that the Book of Revelation is to be taken literally, and that it is written in chronological order. The text of the Old Version is used and is printed at the top of each subject. The chapter and verse divisions are ignored. The text is emphasized by the use of capitals and black type. This helps to explain it and make it clear to the general reader. The descriptive matter of the book is emphasized in the same manner. The book is also illustrated with over 30 charts, maps, and diagrams. Numerous cuts of symbols, beasts, etc., spoken of in the Book of Revelation are distributed through the book at the place where they are mentioned, and add greatly to its value by elucidating the text and saving much explanatory matter. The make-up and printing of the book is unique. The writer has broken all rules of book-making in his desire to make the average reader see and grip the truth. This he has been able to do because of his skill as a draughtsman, and because the Printers of the book, who are lovers of the truth and like to see it Rightly Divided, were in sympathy with the writers purpose, and have done everything they could to make the printers art express the writers thought. A book gotten up in this way is naturally more expensive to print than an ordinary book. The writer had to

spend weeks and months in study and designing the charts, maps, diagrams, cuts, etc. These had to be inked in and lettered by hand. Then plates had to be made of the drawings, and electros of the plates. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
