

## The American: By the Author of The Turn of the Screw

The American was originally published as a serial in The Atlantic Monthly in 1876-1877 and then as a book in 1877. The novel is an uneasy combination of social comedy and melodrama concerning the adventures and misadventures of Christopher Newman, an essentially good-hearted but rather gauche American businessman on his first tour of Europe. Newman is looking for a world different from the simple, harsh realities of 19th century American business. He encounters both the beauty and the ugliness of Europe, and learns not to take either for granted. The core of the novel concerns Newman's courtship of a young widow from an aristocratic Parisian family.
