

## Art of the State: Wisconsin

The dairy state where idiosyncracies flourish and picture-perfect farmlands abound, Wisconsin is where you come for beer and bratwurst and where hamburgers are fried in butter. From Liberace to Spencer Tracy, from the sandstone canyons at the Dells to the log cabin that inspired Laura Ingalls Wilders classic Little House in the Big Woods, from native son Frank Lloyd Wrights Taliesin to the nations only whooping crane preserve-here is a tribute to Wisconsins singular delights for tourists, armchair travelers, and Packer-rooting cheeseheads alike.
